Cozy Mittens - 46" x 55"

Fabric and cutting directions:

- 1 3/8 yards of F10891-J (snowmen blocks)
 - enough to get 5 full rows of mittens with seam allowance on top and bottom.
- 7/8 yards of F10896-R (big plaid in red) for border

Cut 5 - 5" strips across width of fabric (when cutting the large plaid for the borders, keep your cut's parallel to the plaid so that your plaid won't look 'wonky' where it joins your fussy cut center. I would try to match the plaids where they are joined to make the side strips long enough. However, I generally don't worry about matching the plaids where the side borders meet the top and bottom borders.)

- 1/2 yard of F10898-J (black texture) for binding

Cut 6 - 2 1/2" strips across width of fabric

- 2 yards of a flannel for backing

Assembly: 1/4" seam allowance

1. Fussy cut the center of the quilt by cutting a section of 4 snowmen across by 5 snowmen long as shown upper right. (I cut right through the center of the row of X's both horizontally and vertically.)

2. Measure the fussy cut center of mittens horizontally through the center and cut 2 of the 5" big-plaid-R strips to that length. Sew one to the top and one to the bottom of the quilt. Press seams open.
3. Sew the remaining 3 - 5" red plaid strips together into one long strip. Measure quilt vertically through the center and cut two strips to that length. Sew one to both sides of the quilt.
4. Quilt as desired and bind with the 2 1/2" strips of espresso texture flannel.
